

# WILL THEY COUNT YOUR BALLOT IN NEXT WEDNESDAY'S PRIMARY ELECTIONS?

VOLUME XIX

SANTA ANA, CALIFORNIA, JANUARY 22, 1943

NO. 3

## NOMINATE 13 FOR ASB ELECTIONS

### YWCA Drive Nets \$40 For Chinese Student Relief

Results of the campus drive conducted Wednesday by the college YWCA for the World Student Service Fund were revealed today when Mrs. Gail Smith, adviser, stated that a total of \$40 was contributed by club members and the Associated Students.

Contributed for the special benefit of students in China, this sum is equivalent to approximately \$800 in Chinese money and is sufficient to cover the expenses of 100 Chinese students attending school for four days.

In a breakdown of figures, Mrs. Smith declared that the total sum includes \$21 from the Associated Students and \$19 from the proceeds derived from the YWCA campus bookstore.

The opportunity to give the students a chance to cooperate in this drive was due to the work of the college YWCA board composed of Mildred Day, Anne Glidden, Dorothy Weiss, and Barbara Brisco, she said.

Mrs. Smith stated that in making these contributions, Santa Ana jaysee is joining a large list of American colleges and universities such as Oberlin college which raised \$10,800, and Smith college which contributed an average of \$3 per student.

### Five Co-eds To Aid In Victory Drive

Selected by five jaysee service clubs as "campus queens" to aid in the sale of at least \$300,000 in war bonds and stamps, five co-eds will try to outsell each other in the Victory House program scheduled for tomorrow from 11 a. m. to 9 p. m.

Those nominated as bond "sales-girls" are Barney Langton, nominated by the Bachelors; Betty Banks, Buccaners; Maxine Hilliard, Junior Lions; Barbara Matson, Gauchos; and Nadine Loy, Junior Optimists.

Attainment of the goal will bring the privilege of naming a bombing plane "The Spirit of Santa Ana," it was announced.

The winning contestant, or the co-ed who sells the most bonds and stamps, will be guest for a day of George Murphy, motion picture star, visit the M.G.M. studios, and also be luncheon guest of Judy Garland and Ann Sothern.

### Editorial

### Insure Your Future Health

Sadly forgotten by jaysee students is the campus drive for donors of blood for the American Red Cross.

National Chairman Norman H. Davis of the Red Cross recently announced that the army and navy have requested from the people of this nation the procurement of 4,000,000 pints of blood during 1943. This is more than three times the amount obtained from volunteer donors last year.

#### WEEKLY DONATIONS

The armed forces ask that weekly donations be stepped up to at least 70,000 pints. This represents more than 200 per cent increase above the 1,300,00 pints obtained last year.

The importance of blood plasma for the successful care of wounds

is not recognized by the average individual. Plasma has saved and is today saving the lives of fighting men who otherwise would have died.

#### IMPORTANT FACTOR

Used extensively in the battlefields of the South Pacific, North Africa, Russia, and wherever the soldiers of the United Nations rise to meet the foe, plasma has been an important factor in holding down the surprisingly low death rate. This quick and efficient treatment of wounded men is another foundation stone in medicine.

Donating blood is simple and harmless. There is no pain; no after effect. Help insure your future health by sharing your health today.—G.L.

### Invite Flight Quarters To Jaysee

JEANNE TURNER will compete with Anne Kidder and Mildred Lockett for the office of ASB secretary.

HELEN BUTLER will attempt to break all precedence Wednesday when she will challenge male office seekers Keith Davis, Milt Smith, and Eugene Murphy for the ASB presidency.

### Determine March 15 As Deadline For Enlistment In V-1 Reserve

March 15 has been determined as the deadline for enlistments in the Navy's V-1 program, H. J. Sheffield, director of the college enlisted reserve declared today.

"Enlistments of college students who have not passed their 18th birthday will be accepted in the present V-1 program until March 15. Thereafter, college students are eligible for selection for the new Navy college training program only through the regular procedure for all applicants," Mr. Sheffield said.

He also explained the procedure for students transferring from V-1 to V-5.

"The individual student should write a letter to the Office of Director, Naval Officer Procurement," Mr. Sheffield stated, "requesting his transfer to V-5. He is then sent a letter directing him to report to the Naval Aviation Cadet Selection Board. After reporting at that board for screening and physical examination, if qualified, his records are transferred from V-1 to V-5. All the student has to do to initiate the transfer is to make the written request."

### 17 Students Sign Blood Donor List

This month's quota of fifteen blood donors is today complete as a result of the signing of students Bob Brigante, George Wright, and Gale Gammell, Jeanne Clark, blood donor committee head, said today.

There are now 17 persons signed as blood donors, she said.

Setting February 25 as the first tentative blood donating date, the local Red Cross headquarters is planning monthly contributions with no student donating more than once in two or three months. Charles Page is aiding Miss Clark in campus preparations.

Completing the list of blood donors are Emory Yount, Instructor Don S. Overturf, Inez Miller, Keith Davis, Bill Gulley, Miss Clark, Charles Hindley, Marjorie Helms, Instructor Alice L. Smith, Pat Patterson, Connie Rounsville, Dick Roehm, David Thompson, and Roberta Lumpkin.

### Set Feb. 5 Deadline For College Verse

Deadline for student contributions to the 1942 edition of First the Blade, annual anthology of California college verse, has been set for February 5, according to Elaine Howard, who is in charge of campus selections.

Prizes will be awarded for outstanding contributions in four divisions—sonnets, lyrics, patriotic, and humorous verse. Mildred Sheets, well-known California artist and this year's judge at the national exhibit in the Metropolitan Museum of Art, New York City, will design the volume's cover.

### Campus Bungalow Offered To WTS

Possibility that the district headquarters of the War Training Service may be located here in the near future was expressed today by Director John H. McCoy as the result of an invitation given the regional office by the jaysee.

Present quarters of the WTS are located at Bishop, Calif., but college officials have offered A. G. Lygum, ground school supervisor for the CAA and WTS, the use of a campus bungalow.

Purpose Of Transfer  
The purpose of the proposed transfer, Mr. McCoy explained, was to place the WTS officials within closer distances of their supervised fields.

Mr. Lygum supervises District 2 of Region 6 which includes most of the Southern California college flight schools and some in Nevada.

#### College Field

The jaysee airport is located eight miles out of Baker towards Death Valley, in the desert basin of Silver Lake. Baker is 30 miles from the Nevada border and 90 miles from Las Vegas.

### Alpha Gamma Sigma Conducts Research On Service Flag

Research work for the Alpha Gamma Sigma sponsored college service flag is almost completed, Joseph Fadler, president, declared today.

Members of the jaysee honorary language society have been inspecting the college records since the first of the year in an effort to tabulate a complete list of Don alumni now in the service, he said.

He indicated that the flag would probably be in the form of a large board inscribed with the names of the former students and that although no definite location has been decided upon, it is thought that the board will replace the college news bulletin board on the west lawn before College hall.

### Feature

### The Last of the Clarks

Capistrano may have its swallows but jaysee has the Clarks. . . and what may prove to be the last of the long family line is now completing her first semester of college work here.

Freshman Rosamond Clark is the tenth of a series of Clark brothers and sisters who have attended jaysee since 1932. She is a journalism major and feature editor of El Don.

#### BEGINS TRADITION

Beginning the family tradition, Duncan Clark graduated from jaysee in 1933. He is at present employed by Lockheed aircraft company. His twin, Donald, studied here in 1934 and 1935 and is now a motor machinist with the U. S. Navy.

### Schedule Primary For Wednesday

Forthcoming Associated Student and class elections loomed into the campus limelight today as 13 collegiate politicians began extensive campaigns for election to eight major student executive offices.

Polls will be opened in College hall Wednesday morning at 9 for the primary vote. Ballots may be cast until 3:30 p. m., according to poll officials. A final vote will be held Friday during the same hours.

#### LATE BULLETIN

Nomination petitions for Sophomore and A. W. S. officers will be accepted in the college office until next Tuesday noon. If no more than two candidates are nominated for any office, the names will be included in the ballot for the final student election January 29. Otherwise, a special election will be necessary for Sophomores and A.W.S.

In the race for the highest student executive office are Milton Smith, Eugene Murphy, Helen Butler, and Keith Davis, who were nominated for presidency of the Associated Students. Lillian Kuyzin is the only nominee for the AWS presidency.

Another lone candidate is Herb Scott who is unopposed in the vice-presidential race. Jeanne Turner, Ann Kidder, and Mildred Lockett are nominees for the office of ASB secretary.

ROSAMOND CLARK

Albert, also attended in 1934. is in the army stationed in Honolulu. Suzanne, '36, is now married and living in Orange. David and Stuart, fourth and fifth brothers, attended here in 1937. David is today with the army engineers and Stuart is in a tank division. YOUNGEST SON

Robert, who is now a first lieutenant of infantry stationed in Hawaii, was a jaysee student in 1938 and 1939. George and John were here in 1940 and 1941. George is at present a member of the coast guard while John is a corporal with the army air forces.

The youngest son, Oliver, took his oath for army service recently and is now preparing for active duty.

## EDITORIALS

### ● Education Vital In War

El Don goes on record again today as another of the many school publications which is completely convinced of the value of the schools in war, as well as in peace. There have been certain elements of the journalistic world which has taken advantage of the present apparent shortage of technicians and specialists in the armed forces and in the war plants to attack the schools for not preparing students in the fields now needed. The answer is obviously that a few years ago there was no demand for the technicians and specialists and the schools did right by not training an oversupply of such workmen at that time.

#### Render Vital Service

Last week, on the front page of El Don, it was made clear that this staff does not feel that the liberal arts education is a worthless appendage of our educational system. Today the belief is expressed that education generally is of tremendous value to a nation at war, particularly a democratic nation. Further, the schools have done a good job in the past and will continue to improve and render vital service.

For confirmation of this belief, we refer to the word of Paul V. McNutt, Director of the War Manpower Commission, who says:

#### Part Of Assembly Line

"The U. S. needs education today as it never did in its history. Our schools are part of the Victory production-assembly lines. Our schools are Army and Navy training-centers. In 1917 a high school course in math or physics meant little to a soldier. Today's army is an army of experts.

"The Army of Education has served its country well. No Army or Navy anywhere enters the conflict with its personnel as well-schooled as ours. Victory may be the product of our educational preparedness."

Our educational system has done a good job but there is much more to do and it is the contention of this paper that the system will be equal to the new demands which will be placed upon it.

### ● Educational Guarantee

Paul V. McNutt, Director of the War Man Power Commission, in a speech made recently before the National Institute of Education and War in Washington, D. C., made a statement that should be of interest to all students of all ages because it concerns the quality of their future education. McNutt's statement reads as follows:

"Every teacher should stay at his post unless the Army or Navy or Industry should draft him for work of higher priority-rating. It is the patriotic duty of teachers to continue teaching despite the lure of service on other fronts. Teaching is war work."

Here the youth of America has official recognition that the teacher is essential in the present war set-up. Here the youth of America has a guarantee that continued educational opportunities will be provided and that our government is recognizing the tremendous importance of education in democratic America.

Once when Henry Ward Beecher was in the midst of an impassioned flight of oratory, a drunken man in the balcony waved his arms and crowed like a rooster. Instantly Beecher stopped, took out his watch, and remarked: "What, morning already? I wouldn't have believed it, but the instincts of the lower animals are infallible."—Edgar DeWitt Jones, *Lords of Speech*.

Those who love deeply never grow old; they may die of old age, but they die young.—Arthur Wing Pinero

The nearest thing to immortality in this world is a government bureau.—General Hugh S. Johnson

## TAKE YOUR CHOICE

## Capital To Campus

By Jay Richter, ACP Washington Correspondent

WASHINGTON—(ACP)—Men in good standing who have had a year of almost any sort of engineering course—including sanitary, industrialist, radio, transportation, mining and metallurgy—have a basis for requesting occupational deferment, according to a recent amendment to Selective Service's Occupational Bulletin, No. 10.

The same goes for men who have no more than two years remaining in certain other specialized courses—bacteriology, physics, geophysics, astronomy, chemistry, mathematics, meteorology, naval architecture and psychology.

#### More Women Wanted

The Civil Aeronautics Administration is offering scholarships to women—free tuition, plus \$50 for books and \$75 a month living expenses at Massachusetts Institute of Technology, New York University, Chicago University, California Institute of Technology and the University of California at Los Angeles.

These scholarships are open only to co-eds with private air pilots' licenses and college work in mathematics and physics.

But there is a second group of scholarships, offering free tuition at the same tuitions, but no further allowances, for women not licensed as pilots.

Graduates from these courses might be employed by either CAA or the Weather Bureau, with beginning salaries ranging from \$1800 to \$2,000 annually. Applications should be made to the Weather Bureau office in Washington, attention Research and

Training Section, or to any of the five universities.

Wage and Hour Division of the Department of Labor wants women for jobs as "junior wage and hour inspectors" in 12 geographical regions of the U.S.

Qualifications call for either two years of experience in business methods and records, preferably records relating to wages and hours—or four years of college study, with 12 hours in courses such as labor economics, accounting, business organization, etc. Salary is about \$2,300 to start.

#### Fashion Front

Here are a few things for co-eds to expect along the fashion front.

Dyestuffs are likely to be curtailed. Consequently, WPB. advises against black, dark green or brown for summer sheers.

## FEATURES

### ● The Censor and You

Uncle Sam has thrown a ring of censorship around this country's 18,000 miles of border. It keeps 13,500 censors busy.

If you don't think their job is tedious, just recall some of the tripe you've written at various times—when you were feeling gay and writing your best girl, when you were griping or worried about a mountain that later boiled down to a molehill.

The letters people write are only one item that the censor watches.

#### Byron Price Heads Work

Under Director Byron Price, the Office of Censorship in Washington directs a shifting process—mostly at the country's borders—for all letters, cables and telephone conversations that cross the borders of continental United States.

American good nature tolerates censorship because of the general realization that it's necessary to defense in time of war. One woman, writing to a friend about an earlier letter which had contained instructions for knitting a baby's sweater, remarked that the censor must have kept it long enough to knit the sweater himself before releasing it.

#### Censor Must Be Tough

The censor has a tough and thankless job. You may be writing to someone outside the United States without the slightest intention of divulging anything that would aid the enemy, but because of some strange or unusual phrasing you employ the censor may have to hold your letter up.

He can't take chances. He has to look very carefully into such innocent-seeming things as the grades of a student in this country writing to his parents, say in Argentina. They might be a code.

#### Average Delay, 24 Hours

In all cases letters receive individual attention. Each one is a different problem.

Generally, in all but the doubtful cases, the average maximum delay is 24 hours, says the Office of Censorship.

If you're sincere and aren't trying to put something across, just remember that anything unusual about your letter makes it fair to hold up delivery and investigate.

### ● From Here and There

Before the Institute of World Affairs, Chancellor Rufus B. Von KleinSmid of the University of Southern California proposed the adoption of the term "Usonian" by citizens of the United States of North America as a possible solution of the lack of clarity caused by the fact that citizens of both North and South America call themselves "Americans." The final "n" is added for euphony and locale.

Bellingham, Wash.—"Just call me Larry M. Chiang," said a 20-year-old Hawaiian as he left superior court where his name was changed from Charles Moanalikawaokoale Chai.

The stork is the bird with the long bill.

There isn't much to talk about at some parties until after one or two couples leave.

Defeat isn't bitter if you don't swallow it.

Gossips have a keen sense of rumor.

Mud thrown is ground lost.

As a playful precaution against bombing, an Ohio suburbanite painted this sign on his roof: Any Resemblance Between This Roof and That of the Wright Aeronautical Plant Is Purely Coincidental.

A Dachshund pup in Rockefeller Center beauty salon in New York does his bit by moving around with a magnet attached to his collar—salvaging hairpins for reclamation.

# Executive Board, El Don Staff To Attend Theatre Party

## Students To Dine In Los Angeles

The annual Executive Board party, which this year will also include the El Don staff, will take place in Los Angeles tonight, Robert Brigante, president of the student body and head of the party planning committee, said today.

The group will leave the junior college about 4 o'clock this afternoon for Los Angeles. They will dine at a restaurant and then proceed to the Theater Mart to see "The Drunkard."

### Board Members Attending

Those on the Executive Board attending are Robert Brigante, president; George Veeh, vice-president; Glenna Titchenal, secretary; Keith Davis, treasurer; Jeanne Turner, social commissioner; Chuck Page, assemblies; Eugene Murphy, men's athletics; Jeanne Clark, women's athletics; Eugenia Bond, advertising; Gus Luzania, El Don editor; Helen Butler, Del Ano editor, and Director and Mrs. John H. McCoy.

### El Don Staff

Those on the El Don staff attending are, besides Luzania, Mason Teter, sports editor; Betty McMillen, society; Connie Rouns-ville, advertising; Neal Montanus, John Montanus, and Mr. and Mrs. Don S. Overturf. Mr. Overturf is adviser of the El Don staff.

Transportation is being provided by Brigante, Mr. McCoy, Miss Clark, Teter, and Mr. Overturf.

ROBERT BRIGANTE, who was head of the planning committee for the executive board-El Don staff party.

## VOLLEYBALL TOURNAMENT CALLED OFF

Lack of interest was given today by Miss Zena Leck as the reason the Women's Athletic Association's annual volleyball tournament has been called off.

The athletic club has held volleyball practices since the Christmas holidays, but only fourteen women have participated.

The athletic club is to hold a party sometime next week. The date has not been set yet.

### The Collegiate Review

Dr. Hu Shih, former Chinese ambassador to the United States, has accepted appointment as research associate and consultant of the American Council of Learned Societies.

A. T. Howard of the coaching staff of Hampden-Sydney college is taking marine officers' training at Quantico.

Dr. Harry A. Garfield, late president of Williams college, was a son of James A. Garfield, twentieth president of the United States.

Brown university students' favorite fiction is "East of Farewell," by Howard Hunt, '42, and their favorite piece of non-fiction is "Only the Stars Are Neutral," by Quentin Reynolds, '24.

One hundred twenty students from foreign countries are enrolled at the University of Texas.

## USC To Have Early Look At New Movie

HOLLYWOOD, Calif.—(ACP)—Fritz Lang, producer-director of Arnold Pressburger's new United Artists feature, "Unconquered," is inaugurating a new and significant adventure in showmanship.

As soon as his picture is cut and assembled it's to have its sneak preview in the ultra exclusive precincts of the University of Southern California's Hancock hall, famed as the most luxurious home of the cinema to be found anywhere.

### The Sneak Preview

The sneak preview is essentially a Hollywood creation, stemming from the highly commercial necessity of testing audience reaction on a film before sending it out to the theaters on its own.

So—a sneak preview on a college campus? For a genuinely popular reaction?

With assistance of Prof. Frank Judson, dean of the department of cinema, at USC, a careful survey of the student body was culled from records in the registrar's office.

### Representative Preview

As Lang puts it: "I could not hope to find anywhere a more representative motion picture audience than in a typical large American college of today. We have besides the university faculty to provide a desirable leavening of the so-called intelligentsia."

"That is why I have accepted the invitation of Prof. Judson to 'sneak' our picture in Hancock hall. We shall make an affair of it. Whereas at ordinary 'sneak' preview the audience is requested to scribble impressions on post-cards, not very satisfactory, this time we shall remain after the showing for a seminar and discussion."

## Collegiate Newsettes

(Compiled from ACP Dispatches)

ANN ARBOR, Mich.—Specialized instruction to prepare men and women for service in territories likely to be occupied or in need of assistance as a result of the war is now being offered by the University of Michigan graduate school. Each student will be intensively trained for a particular area through a study of the language, resources, customs, institutions and history of that area.

Two programs have been designed. One will cover approximately eight months and is designed for mature persons with adequate training or experience in either law, industry, finance, public utilities, education, public health, social welfare or engineering. The second program is for persons lacking such specialization and will include basic preparation in some one of the fields.

AUSTIN, Texas—Mark up another score for stiff exercise!

University of Texas co-eds who took a "war-conditioning" physical training course showed an improvement of 24.69 per cent in

total physical fitness, according to a survey of actual tests made at the beginning and the end of the course.

CHAMPAIGN, Ill.—A survey of the nation's universities and colleges shows a 9 1/2 per cent decline from a year ago in the number of full-time students.

The University of California, with 18,364 full-time students, ranked highest in the nation. The University of Minnesota was second with 11,859, and the University of Illinois third, with 11,294.

## Piloteers To Hold Peasant Affair

Piloteers, service club, is holding a peasant party, Monday, at 7:30 o'clock in the local high school hut, Eugenia Bond, president, said today.

The party will be a date affair, with dancing. Officers for the second semester will be elected at the party.

Committees for the party are Eugenia Bond, plates; Lujan Kail and Bernita Horton, decorations; Barbara Brisco, entertainment; Jeanne Clark, food, and newly elected officers, clean-up.

## Student Teachers Conduct Classes

Three women students are now practicing teaching gym classes, Miss Zena Leck said today.

The women are Jeanne Clark, Jean Engdahl, and Beverly Claire. Miss Clark is teaching advanced swimming at 10 o'clock on Tuesdays and Thursdays, and is also teaching the 11 o'clock volleyball class on Tuesdays and Thursdays. Miss Engdahl and Beverly Claire are teaching advanced and beginning swimming.

## Women's Army Chance For Co-eds To Serve

Expanding by Executive Order to 150,000 women, the Women's Army Auxiliary Corps, known popularly as the WAACS, are taking over more and more non-combatant duties for the army, thus releasing soldiers for the front fighting lines.

In order to be an officer, you must enroll as an auxiliary for four weeks basic training. If you qualify for officer's training, you will be sent to Officer's Candidate school for eight weeks further training. At the successful completion of the course, you will be commissioned a Third Officer, which is equivalent to second lieutenant in the men's Army.

To join, you must be 21 to 44 and a citizen of good repute. WAAC pay is equal to Army pay. An Auxiliary receives \$50 each month.

For further information, go to your nearest army recruiting and induction station or write: Appointment and Induction Branch, D-1, AGO, Washington, D. C.

## From The Sidelines

By MASON E. TETER

The Coffeyville (Kans.) Junior college has a football record better than the Dons, but perhaps against a weaker brand of competition. They've got a string of 26 consecutive football victories and were runnerup to the Dons for the national junior college grid championship. They have our basketballers easily outclassed on the hardwood. They recently rang up their thirty-second straight cage win.

San Bernardino may be heard from in the Eastern conference race if they live up to advance notices. They took the measurements of five opponents in a row before losing to the Los Alamitos Air Raiders. Fullerton also lost to the Raiders, but the Indians seemed to have more on the ball than the present league leaders. They're a good bet if you like long shots and dark horses.

When you talk of high scoring basketball teams, cast an eye at the Rhode Island State college quintet which has average 92 points per game so far this season. The Islanders last week trounced Notretheastern 107-64 in a Madison Square Garden engagement. Previous to this they had tripped up several teams by 100 point scores including one 124-59 win. The best defense, gentlemen, is a good offense.

Les Wandell follows Jack Strength into the army next week or the week after. One local sports editor says Bill Foote never worries about his basketball team. Maybe that's what's wrong, huh? Eugene Murphy expects to be laid up for two weeks following his operation. Paul Cleary will leave Santa Ana for USC very soon now. Also Chuck Page. Jack Sullivan, who contributed most of last year's sport pics for this paper, is being moved from the local base to Arizona. Sully is in the photography branch of the service and has been made a sergeant. Former sports editor of this page Vic Heim is a corporal at the SAAAB. Pvt. Weddington Couch, who played on last year's Don quintet, is stationed at Merced, Calif.

### Dons Lose Another One; This Time To Hornets

Santa Ana's Dons dropped their second conference tilt in a row last Friday when they were decided by the Fullerton Hornets 53-41.

The Dons sailed into an early lead when they led the Swarm 6-1, but they were outclassed during the rest of the half by their up-county rivals and trailed 30-22 at the intermission. The second half saw the Dons threaten once, but the Hornets came through when the chips were down and were pulling away as the game ended.

Jack Strength, who was this week inducted into the army, tied with Milford Dreblow for individual scoring honors, both boys accounting for 11 points.

When Hank Gowdy led the Boston Braves from eighth place to the National league pennant and subsequently the World Series championship in 1914, he was everybody's hero. Ten years later he was the goat of the series between Washington and New York.

## Poor Team Is Result Of Student Apathy

A little over two months ago jaysee students were highly enthused over our national championship football eleven. They witnessed practically every game and the display of college spirit shown in those contests played no small part in the drive for the national grid crown.

But sic transit gloria mundi, taken from the Romans, and were they glad to get rid of it. Today that picture has undergone a complete metamorphosis or something. Instead of a large united crowd boosting our basketball team into the win column, we have a few stragglers losing their way

into Andrews gymnasium, lost sheep who probably thought they were in a theatre line until it was too late to get out. The doors were closed. A few express surprise at finding a basketball game instead of the wake they came to attend. But what is the difference? All they lack is the body.

Yet these poor lost souls are not to be blamed. Their naked courage is commendable. It is those who for some reason or other, usually a blonde, fail to attend at least one tussle, that the finger of accusation rests upon. They are definitely persona non grata.

Yet those Dons wearing the red and black of our college deserve as many of our cheers as the others we encouraged while they fought in moleskins.

To those collegians who would rather hear the radio adventures of "Rosie the Riveter" or see the latest film escaped of "Fearless Fosdick," we recommend that they attend at least one or two conference games. Interest is sure to develop. And we don't mean in "Fearless Fosdick," good as he undoubtedly is. Attend tonight's game and support the team during the remainder of the season. —G.L.

# Dons Mix With Norco

## SPORTS

### Dons Edged Out Of Race; Fullerton Paces Conference

#### Locals Downed By Hornets, Bengals

Idle tonight in the Eastern conference race after taking it on the chin two times in as many weeks, the Santa Ana Dons today found themselves definitely eliminated from the conference race.

Losing their conference opener to Riverside squelched whatever hopes the locals might have had for league supremacy. Their sad state was further heightened by the Fullerton Hornets who laced the Dons last Friday night for their second conference victory.

#### Dons Still Count

The Dons may still have a part to play in the race, however, when they meet San Bernardino next Friday. The Indians are a dark horse in the league battle and the Dons may be able to stop the inland jaysee before they can make a bid for the '43 Eastern division crown.

Fullerton is currently atop the standings with wins over Pomona and Santa Ana to their credit. Close behind are Riverside's Bengals, last year's champions, who are expected to fight it out with the Hornets for the championship.

#### Tonight's Tussles

Games tonight bring together Fullerton and Citrus at Azusa and Pomona and San Bernardino on the latter's court.

Following are the league standings:

	W.	L.
Fullerton	2	0
Riverside	1	0
Pomona	1	1
Citrus	0	1
SANTA ANA	0	2
San Berdoo	0	0

### WAA Making Plans For Spring Term

Plans for next semester's activities are being formulated today by members of the WAA, which call for a multiplicity of sports including basketball, volleyball, badminton, swimming, and baseball.

Cancellation of the scheduled volleyball tournament which was slated for January 26 and 28 was necessary because of the small turnout of women students, Miss Zena Leck, adviser of the group said.

Practice is being held by the women on Tuesday and Thursday from 3 to 4 o'clock in the YMCA gymnasium. Any women may join the organization by coming out for practice regularly, Miss Leck stated.

### Local Cagers Gun For Initial Win

Santa Ana's basketball Dons play host tonight to the Corona Naval Hospital five when they clash with the latter in a non-conference battle at Andrews gymnasium. The game is scheduled to begin at 8 o'clock.

The Dons are out to prove that they are not as bad as they look. They haven't won a game all season, but expect to show the Norconians plenty this evening, and they aren't going to do a strip tease. The Dons defense has shown improvement but the offense is still a headache to Coach Bill Foote.

#### Corona Unknown Quantity

Little is known of the hospital quintet as they are a newly formed team and have yet to prove their mettle under fire. A win for the Dons over Corona tonight may be just the stimulus the Footemen need to bring out their full potential abilities.

Coach Foote faced with an acute shortage of forwards is finding his difficulties increasing instead of lessening. The Dons will be playing tonight without the services of Jack Strength, who was inducted into the army last week. His loss will be felt keenly by the Footemen tonight.

#### Wandell Leaving

Another headache for Foote came when it was learned that Les Wandell, another forward, expects to enter the armed forces either next week or the week after. Wandell has had a call for his final physical examination and this may be his last appearance in a Scarleteer uniform.

Starting lineup for the locals tonight will probably be Hobart Turley and Wandell, forwards; Bill Blackwell, center; and Bruce Gelker and Milford Dreblow, guards.

### Former Jaysee Athlete Gains National Honor

Walt Smith, former Don trackman, was today listed on the All-American track and field team announced by the National AAU committee. Smith, who is now attending USC, was given recognition for his outstanding ability in the 400-meter hurdles.

While at Santa Ana, Smith set a new record in the 400 yard dash and tied the record time for the 200 low hurdles. He was also helped to set a new record in the mile relay.

REPORTING THIS WEEK to St. Mary's Pre-flight Naval base is Hal Lilley, who two years ago led the Dons to their first national junior college grid championship. He starred at quarterback for the Cookmen.

### Feller Says He Will Return To Baseball

Bob Feller, the fireball pitcher from Van Meter, Iowa, said today that he would definitely return to baseball after the war is over.

Now serving in the Coast Guard, Feller said that he had not handled a baseball since last August and expressed the belief that his naval duties would not permit him to do any more than "warm up once or twice and do a little running this spring."

"I've read somewhere," Feller stated, "that military service develops new muscles and causes different muscular reactions that may ruin the careers of athletes. I don't think that is true in my case. I think I'll be ready to play ball again if I can keep my legs in shape."

A cartoon feature of Feller appears below.
